## 10<sup>th</sup> Meeting of the MATBUS Coordination Committee

### Special Call Meeting

September 10, 2025 | 9:00 – 10:30 am

Location: Metro COG Conference Room/Zoom

[Click here to join the meeting](#)

Meeting ID: 890 6859 5689

Passcode: 669108

1. Call to Order and Introductions
  - a. Approve Order and Contents of the Overall Agenda
  - b. Review and Action on Minutes from August 20, 2025
2. Public Comment Opportunity
3. Informational Items
  - a. Proposed Route and Service Change Public Comment Review – **Julie Bommelman**
  - b. MATBUS Route and Service Changes/2026 Budget Workshop – **Julie Bommelman**
4. Other Business

---

Metro COG is committed to ensuring all individuals, regardless of race, color, sex, age, national origin, disability/handicap, sexual orientation, and/or income status have access to Metro COG's programs and services. Meeting facilities will be accessible to mobility impaired individuals. Metro COG will make a good faith effort to accommodate requests for translation services for meeting proceedings and related materials. Please contact Angela Brumbaugh at 701-532-5100 at least 48 hours before the meeting if any special accommodation is required for any member of the public to be able to participate in the meeting.

A PLANNING ORGANIZATION SERVING

FARGO, WEST FARGO, HORACE, CASS COUNTY, NORTH DAKOTA AND MOORHEAD, DILWORTH, CLAY COUNTY, MINNESOTA

# Agenda Item 1b

**9<sup>th</sup> Meeting of the  
MATBUS Coordination Committee  
August 20, 2025 – 9:00 AM  
Metro COG Conference Room/Zoom**

**Members Present:**

Deb White, Moorhead City Council, Chair  
Denise Kolpack, Fargo City Commission  
John Strand, Fargo City Commission  
Julie Bommelman, Fargo Transit Director  
Susan Thompson, Fargo Finance Director  
Sebastian McDougall, Moorhead City Council  
Jenica Flanagan, Moorhead Finance Director  
Mike Rietz, Moorhead Assistant City Manager  
Peyton Mastera, Dilworth City Administrator  
Ben Griffith, Metro COG Executive Director

**Members Absent:**

Dustin Scott, West Fargo City Administrator  
Brit Stevens, NDSU Transportation Manager

**Others Present:**

Adam Altenburg, Metro COG  
Shaun Crowell, MATBUS  
Luke Grittner, MATBUS  
Taaren Haak, MATBUS  
Jean Henning, City of Fargo  
Aiden Jung, Metro COG  
Matt Pinotti, Transdev  
Jordan Smith, MATBUS  
Cole Swingen, MATBUS  
Megan Zahradka, Moorhead Finance Manager

**1a. Approve Order and Contents of the Overall Agenda**

Chair White noted that one of the items listed under "Informational Only" was not appropriate for that section. She referenced the Interim Joint Powers Agreement, which states that any budget-related items must be recommended for approval by the Board before being forwarded to a partner city. She suggested moving Item 2a and incorporating it into Item 3b under the "Action Items" section.

A motion to approve the order and contents of the agenda as amended was made by Mr. Mastera and seconded by Mr. Griffith. The motion was voted on and unanimously approved.

**1b. Review and Action on Minutes from July 16, 2025**

A motion to approve the minutes for July 2025 was made by Mr. Griffith and seconded by Mr. McDougall. The motion was voted on and unanimously approved.

## **2b. Safety and Security Update**

Mr. Swingen provided an update on safety and security, noting that many of the same concerns previously identified continue to persist.

Chair White inquired whether MATBUS has experienced an uptick in crime following the closure of the Downtown Engagement Center. Mr. Swingen responded that it is difficult to draw a direct correlation between the two and noted that some of the ongoing issues appear to stem from a few recurring individuals.

## **3a. City of Fargo Transit Title VI Civil Rights Program**

Mr. Crowell presented an update on the Title VI Plan, noting that the plan is required to be updated every three years. He explained that, following board review, the plan will proceed to the Fargo City Commission, and ultimately to the Federal Transit Administration (FTA) for final approval.

Mr. Crowell clarified that the materials included in the meeting packets are only a summary of the Title VI Plan. The full document, which is approximately 500 to 600 pages, will be submitted to the Fargo City Commission as part of the approval process.

A motion to authorize staff to bring the proposed City of Fargo Transit Title VI Civil Rights Program to the Fargo City Commission for approval and submit to the Federal Transit Administration was made by Mr. Griffith and seconded by Ms. Bommelman. The motion was voted on and unanimously approved.

## **2a & 3b. 2026 Proposed City of Fargo and City of Moorhead Transit Budgets & Proposed Route and Service Changes in Fargo and West Fargo**

Ms. Bommelman began by noting that, due to the ongoing rise in operational costs and the stagnation of revenue streams, MATBUS was proposing route changes in Fargo and West Fargo. She stated that MATBUS had done extensive research to ensure the proposed changes affected the smallest number of riders. She noted that a public hearing on route changes would be held during the Fargo City Commission meeting on September 2 and that an open house would be held at the GTC on August 25 from 4:00 to 6:00 PM.

A description of some of the proposed changes included:

- **Route 13:** The proposed change would reduce the frequency of Route 13. Route 13 would only depart the Ground Transportation Center at :15 after the hour. Currently Route 13 departs at :15 and :45 after the hour from 6:15 AM to 5:45 PM Monday through Friday.
- **Route 14:** The proposed change would reduce the frequency of Route 14. Route 14 would only depart the Ground Transportation Center at :45 after the hour. Currently Route 14 departs at :15 and :45 after the hour from 6:15 AM to 5:45 PM.
- **Route 15:** The proposed change would increase Route 15 from a 60-minute route to a 90-minute route to improve on-time performance. A pilot program of this change was introduced in May of 2025 to determine the effectiveness of this change.
- **Route 16:** The proposed change would eliminate Route 16 (Transit staff discussed this proposed change with the Fargo Housing Authority; with Route 14 servicing 4th Street going past the old High Rise, there were no concerns about serving the new public housing at the same location.)
- **Route 18:** The proposed change would reduce Route 18 from a 90-minute route to a 60-minute route. Route 18 would end at the Essentia Health clinic on 32nd Avenue

S, and would no longer service any areas south of 32nd Avenue S. The northern portion of the route would also be adjusted to service the Cass County Jail and surrounding areas.

- **Route 20:** The proposed change would reduce Route 20 from a 60-minute route to a 30-minute route. Route 20 would only travel as far east as 42nd Street S. This would eliminate service to the Cass County Jail and surrounding areas.
- **West Acres Transit Hub:** The proposed change is to no longer utilize the West Acres Transit Hub as a transfer point for MATBUS routes. Instead, transfers would be made at the Walmart bus shelter, located at the intersection of 47th Street S and 11th Avenue S. This change would affect Route 14, Route 15, Route 20, and Route 24 (as well as Route 16 if it is not eliminated).
- **Industrial Park On-Demand Service:** The proposed change would eliminate the Industrial Park On-Demand Service.
- **Paratransit Service:** The proposed change would eliminate Sunday Paratransit services. Currently, MAT Paratransit operates from 7:00 AM to 5:00 PM on Sundays.

Following the presentation of proposed route changes, Mr. Swingen provided the committee information on MATBUS's full 2026 budget with and without proposed reductions. Mr. Swingen and Ms. Bommelman noted that full 2026 expenses prior to revenue being applied for MATBUS were \$15,979,075.33. Mr. Swingen shared that, after revenues are applied, expenses were \$5,001,789.20 for the City of Fargo, \$4,262,210.87 for the City of Moorhead, \$444,960.28 for the City of West Fargo, and \$805,263.54 for NDSU. Total expenses after revenues are applied were \$10,514,223.89.

Mr. Swingen compared the prior information with a 2026 budget that included proposed reductions to Fargo and West Fargo service. Total expenses prior to revenue being applied were \$14,606,703.42. After revenues are applied, expenses were \$3,310,575.12 for the City of Fargo, \$4,319,901.79 for the City of Moorhead, \$461,292.26 for the City of West Fargo, and \$756,230.06 for NDSU. With this scenario, total expenses after revenues are applied were \$8,847,999.23.

Chair White noted that, under the 2026 budget with proposed route and service changes in North Dakota, the City of Moorhead's expenses were actually more, without any additional benefits to its residents. Mr. Swingen explained that this had to do with the redistributions through the cost allocation formula and noting that Moorhead would have a higher percentage of service. Chair White asked whether MATBUS was looking at riders and where they originated, or where the routes were. Mr. Swingen responded that the cost allocation formula, as currently modeled, only looks at the cities where routes are located, regardless of which metro area city's residents utilize it the most. He iterated that MATBUS is trying to impact the overall transit system as minimally as possible by looking at low ridership routes and ways that MATBUS can adjust existing routes.

Chair White voiced her concerns that, because of financial difficulties with the City of Fargo, all of the MATBUS partners will be impacted, and the City of Moorhead would be paying a higher share of expenses for lower overall quality service. Mr. Smith confirmed Chair White's concerns but noted that the cost allocation formula was working as it was intended to.

Chair White asked what involvement the other partners (Moorhead, West Fargo, Dilworth, and NDSU) had in any of the budgetary discussions between MATBUS and the City of Fargo. Ms. Bommelman responded that there had been discussions with the City of Moorhead at times throughout the process. Ms. Flanagan and Ms. Zahradka expressed concerns that

they did not have a clear picture of the proposed route and system changes and their implications.

Ms. Kolpack left at 9:39 AM.

Chair White said that, speaking as a Moorhead resident, it was disturbing to see that expenses for the City of Fargo were unilaterally reduced by approximately \$1.7 million while being increased for the City of Moorhead, and that the detriments would be felt system wide. She reiterated that the City of Moorhead and others were not being treated as equal partners in the budgetary discussions between City of Fargo staff and MATBUS. She also expressed concern that the transit budget agenda item was initially listed as an informational item when the MATBUS Coordination Committee is required to hold a vote prior to sending budgets to the Fargo City Commission and Moorhead City Council.

Mr. Strand stated that the views of the committee needed to be communicated clearly to the City of Fargo, both staff and elected officials. He also recommended that the partners convene immediately and discuss budgetary and system changes jointly. Chair White responded that she had expressed her concerns repeatedly at prior committee meetings and that joint meetings between the partners should have occurred months ago. She stated that she and other committee members did not have to support a budget that they had no part in.

Ms. Thompson asked what the next steps should be regarding a discussion between MATBUS and its partners, and whether the committee should meet prior to its scheduled meeting on September 17. Ms. Flanagan iterated that it was important for the partners to begin discussions as soon as possible. With regard to the City of Fargo's upcoming public hearings and budgetary discussions, Mr. Rietz asked that no action be taken on MATBUS' budget until the partners have had a chance to discuss issues further. Chair White suggested a special meeting of the MATBUS Coordination Committee on September 10.

A motion to oppose the 2026 proposed City of Fargo and City of Moorhead transit budgets and proposed route and service changes in Fargo and West Fargo until further evaluation and discussion was made by Mr. Rietz and seconded by Mr. Strand. Mr. Mastera offered a friendly amendment to include the creation of a working group comprised of partner agencies to continue budgetary discussions, which was accepted by the maker and seconder. The amended motion was voted on and unanimously approved.

### **3. Other Business**

Ms. Bommelman and Mr. Altenburg gave a brief update on the MATBUS Transit Development Plan. They noted that the draft final plan was released on July 30 and that a public comment period was open until September 10. They also informed the committee that a virtual public open house was scheduled for August 27 from 11:00 AM to 1:00 PM.

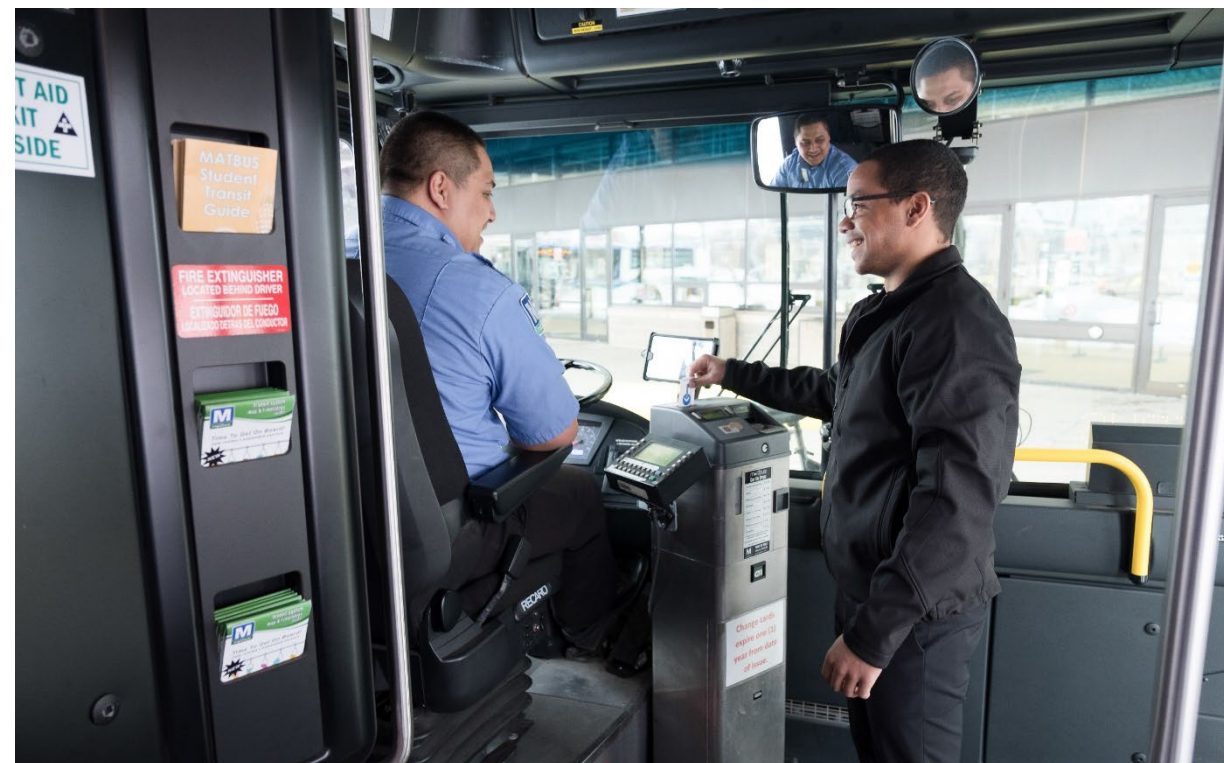

Chair White reminded the committee that a special meeting of the MATBUS Coordination Committee would be held on Wednesday, September 10 at 9:00 AM.

Chair White adjourned the meeting at 10:10 AM.

# MATBUS Route and Service Change Public Comments

Agenda Item 3a

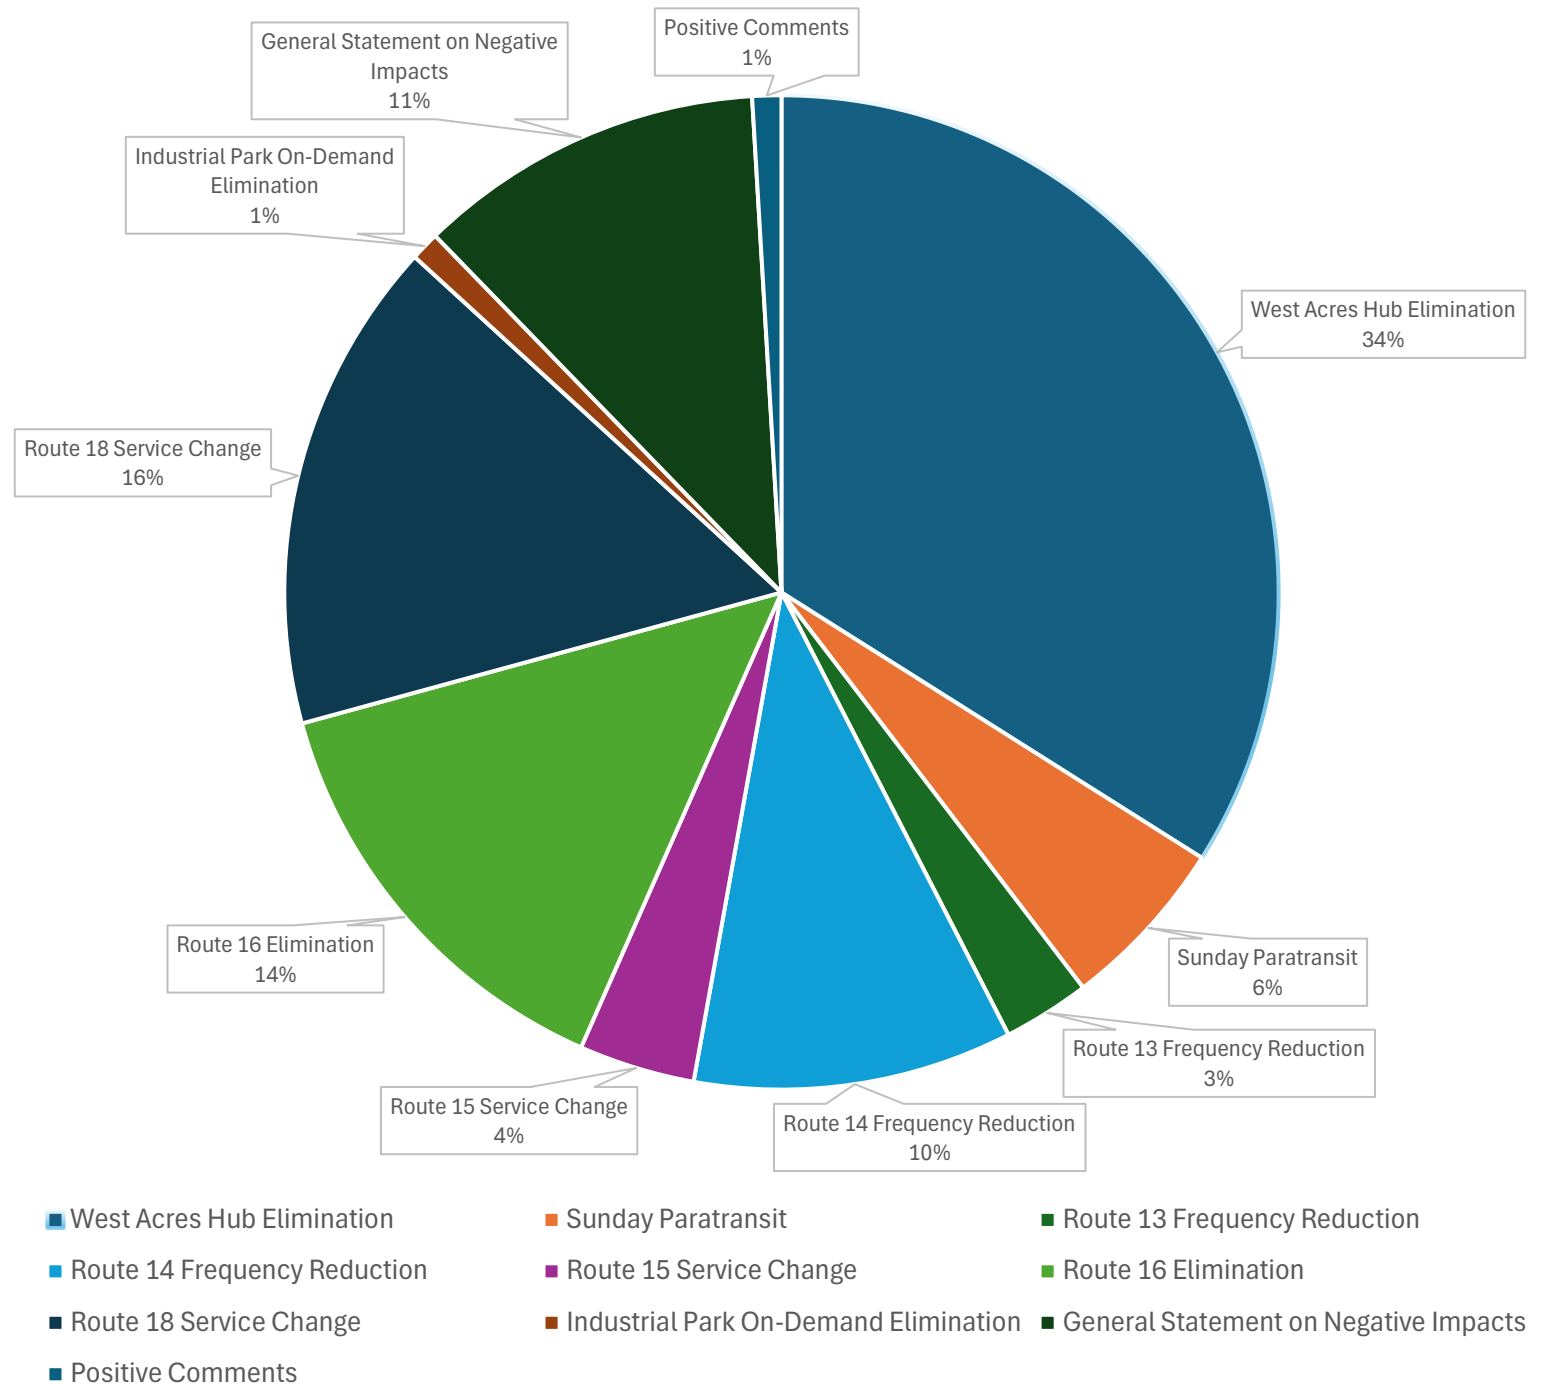

# Comment Overview

In Total **83** Comments were received regarding the proposed changes, of which **69** were written and **14** were received during the public comment period at the September 2<sup>nd</sup> City of Fargo Commission meeting. Many of these comments speak toward more than one of the proposed changes.

Of these comments:

- **36** Included the **West Acres Transit Hub Elimination**
- **17** Included the **Route 18 Service Change**
- **15** Included the **Route 16 Elimination**
- **12** Included **General Statements on the Negative Impacts of the Proposed Changes**
- **11** Included the **Route 14 Frequency Reduction**
- **6** Included the **Sunday Paratransit Service Elimination**
- **4** Included the **Route 15 Service Change**
- **3** Included the **Route 13 Frequency Reduction**
- **1** Included the **Industrial Park On-Demand Elimination**
- **1** Included a **General Statement Supporting the Proposed Changes**

# Route 20 Comments

**No comments were received regarding Route 20.**

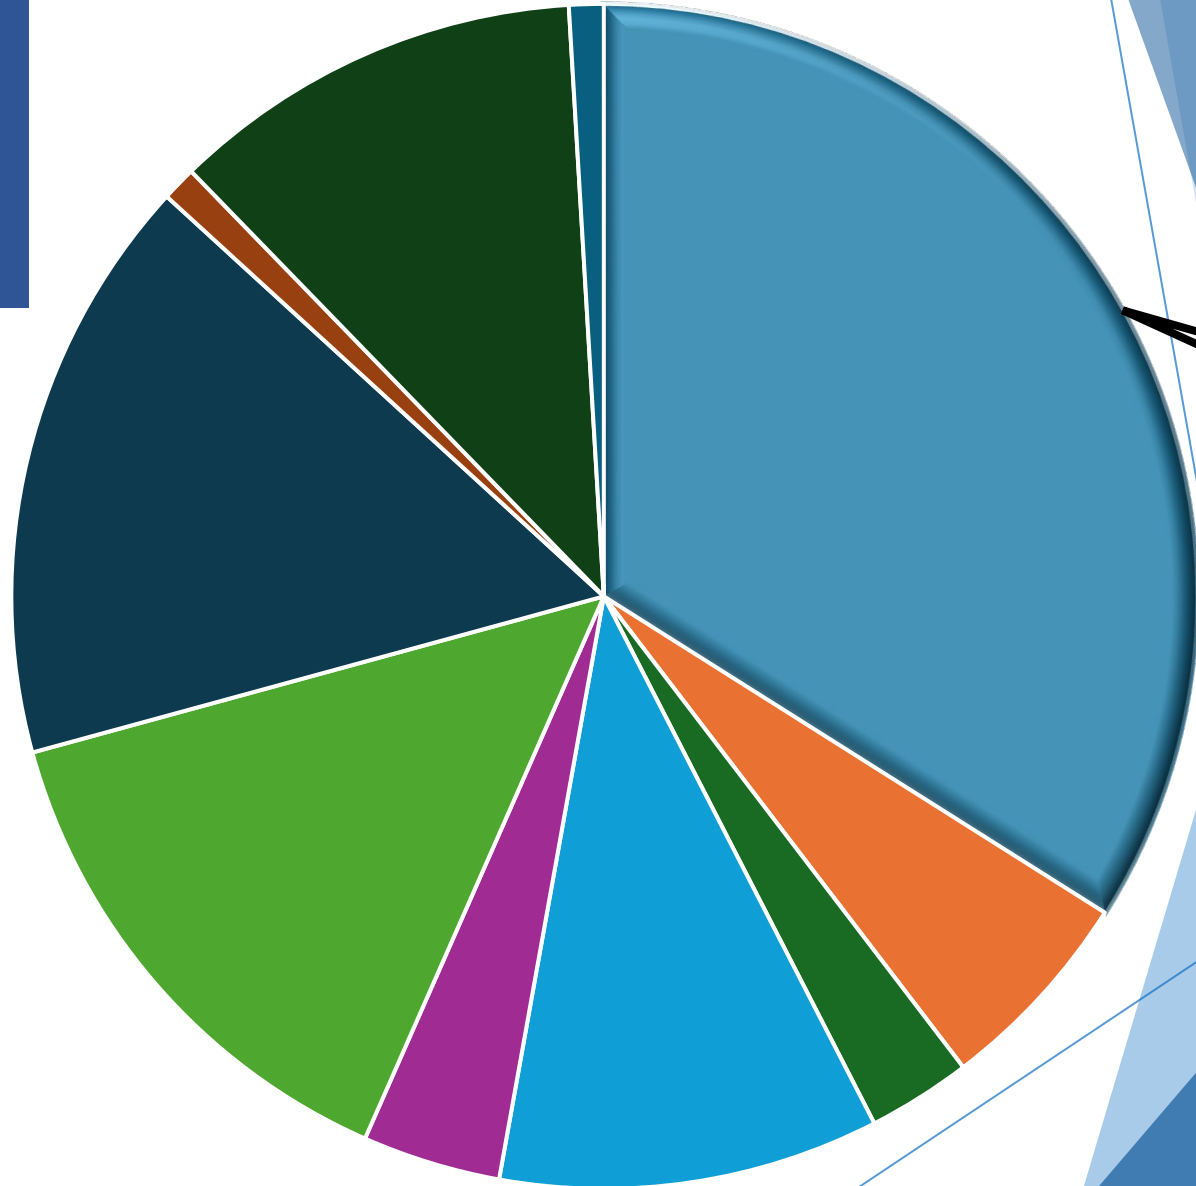

# West Acres & Industrial Park Service

***West Acres Transit Hub:*** The proposed change is to no longer utilize the West Acres Transit Hub as a transfer point for MATBUS routes, instead, transfers would be made at the Walmart bus shelter, located at the intersection of 47<sup>th</sup> St S and 11<sup>th</sup> Ave S. This change would affect Routes 14, 15, 20 and 24 (as well as Route 16 if it is not eliminated). The cost for a year to lease and provide security services is approximately \$175,000; a portion of the existing costs could potentially be necessary at the proposed location (Walmart), resulting in a lower cost savings.

***Industrial Park On-Demand (TapRide) Service:*** The proposed change would eliminate the Industrial Park On-Demand Service. The number of trips per day on this service is approximately 10-12 riders. Please note the nature of the businesses in the Industrial Park is shift work, Transit may be able to bring someone to work or pick them up after work, but likely not both.

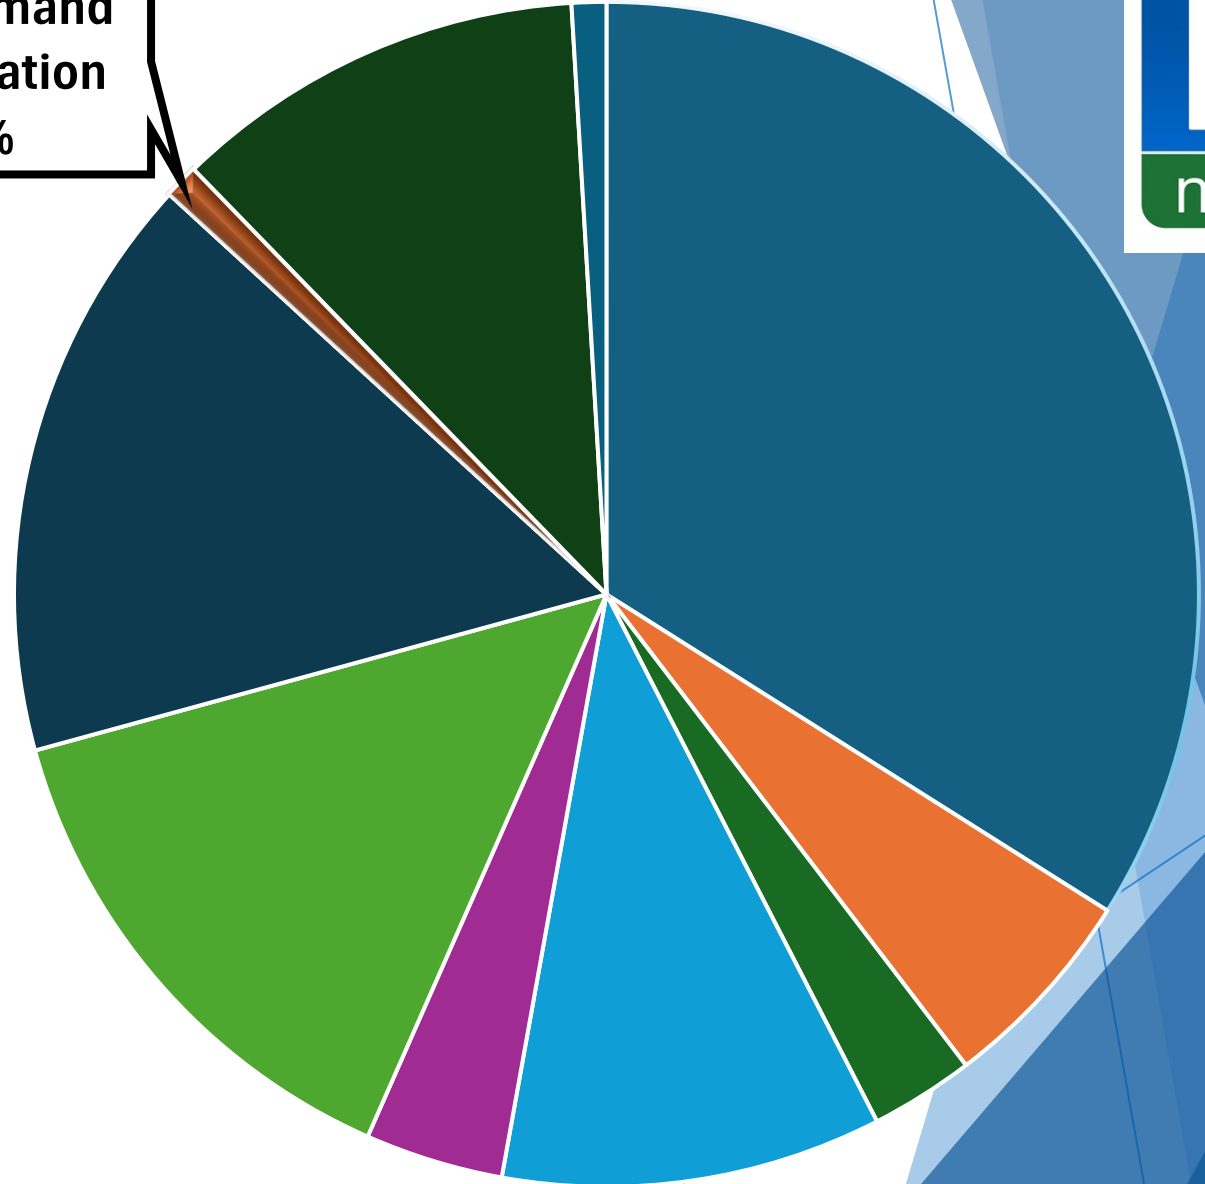

# West Acres Comments

**West Acres Hub  
Elimination  
34%**

# Industrial Park Comments

# Paratransit Sunday Service

***Complimentary Paratransit Service:*** The proposed change would eliminate Sunday Paratransit services. Currently, MAT Paratransit operates from 7:00am to 5:00pm on Sundays and transports 10-12 riders per Sunday. Complementary paratransit services are federally required during the same hours fixed route service operates. Fixed Route service does not operate on Sundays; therefore, this service is offered above and beyond what is required of the City/Department.

**8/27/2025****Subject:** Public Hearing Communication and Comments

MATBUS staff have proposed several changes to routes and services, in an effort to balance the department's 2026 budget. These proposed changes would go into effect on January 1, 2026, if approved.

MATBUS policy directs that staff must solicit and consider public comment for implementation of all changes in fares or major changes in service. As part of this process, there was a public hearing held during the Fargo City Commission meeting on Tuesday, September 2, 2025. During this public hearing, members of the public were welcome to present their comments in person, verbally, to Commission members.

The public was also invited to register their comments prior to the public hearing, and those comments were presented to the Commission members for their consideration. These public comments could be made by email, phone call, social media comment or direct message, paper comment cards, or the online public comment map.

Efforts to inform the public of this hearing and potential changes are described below:

- **Public Hearing Notices** - formal notices placed in The Forum on August 17 and 22, describing changes in detail – one for route changes and one for fare changes in each edition
- **Public Comment Map** – online map of the fixed route system, showing all proposed changes – public can add comments by dropping pins on specific sections of the map
- **Rider Alerts** – email blasts sent to 1,802 people on our subscriber list
- **Bus Posters** – placed in all 43 fixed route vehicles, with QR codes linking to detailed information and the public comment map
- **GTC Display** – details posted in the GTC display case, with comment sheets available to be filled out by hand and turned in to the Customer Care window

- **Social Media** – announcements and reminders posted on Facebook, X and Instagram
- **MATBUS Website News Post** – full details posted with a link to the public comment map
- **MATBUS Website Homepage Rotator** – image in the rotating homepage carousel that links to the news post
- **GTC Display Screens** – TV screens in the GTC lobby that display rotating information
- **Paratransit Rider Direct Mailing** – sent to every rider in the MAT Paratransit system, including both public hearing notices (one for route changes, one for fare changes) and an explanatory cover letter

The following is a synopsis of what was said by someone who spoke at the September 2nd public hearing regarding the proposed route and service changes:

Lady that lives in N Fargo: against Rt 13 change, feels frequency reduction would impact many; against WA change, Walmart not safe; against Rt 16 elimination, feels people cannot get to where they are going by using 4th St (Rt 14); needs bus to come to front door of new public housing where old highrise was.

23 hours ago

...

Currently, the only way I'm getting from downtown to this area without it taking an entire morning is by catching Route 14 for the return trip. (I used to take the very efficient Route 15, which has been rendered extremely difficult on Saturdays). If Route 14 goes to an hourly schedule as well, this will become very difficult, especially in the winter.

**Henry Beach**  
5 minutes ago

This change will make it necessary for me to leave the GTC at 6:45 am in order to be at work on time at 8 am, despite the fact that I work at University and 34th ave south. In the summer it is a 15 minute bike ride, but I can't ride if the wind chill is colder than -30. These changes are an absolute disaster.

Anonymous comment on Remix map placed near Cass County Jail but referring to Cash Wish on 13th Ave S,

**Anonymous Commenter**

19 hours ago

I rely on buses 14 & 16 to get to and from work(Cash Wise). So do other co-workers and customers. Cabs are too expensive to take to and from work everyday. Thats why take the bus because thats all i can afford.

...

The pilot project of Route 15 has made my life (as a 20+ year MATBUS rider) much more difficult. The fact that it only goes to well-traveled areas once an hour on Saturdays has increased the time of my simple errands by an hour or more. Not to mention the confusion of it sometimes being a half hour and sometimes an hour. It is also intensely frustrating to sit at the Transit Hub for 15 minutes for no reason. This was the most useful and efficient route on the line, and this has really made me feel that you don't care about the riders.

Comment from our public comment Remix map, near Cash Wise on 13th Ave S.

Received during Open House on 8/25: Linda Onstad - 90 minute service on Route 15 is too long. This causes multiple buses to arrive at West Acres & Walmart at the same time, which confuses people. Route 16 should be kept as it is to service the new low income housing that will be where the old high rise was. Route 14 covers this area but it isn't enough. It's good that Route 14 will service Elliott Place with the new proposal but it'll be a long trip for the residents who ride it.

Feedback Comments

Every person who uses public transit means there is more room for drivers on the road. They decrease traffic, save wear and tear on the city's streets, and leave more parking spaces available.

A few months ago, the Forum reported that the 2024 ridership on MATBUS was up to 1.3 million riders: a lot of extra traffic that every Fargo-Moorhead driver would have to contend with and compete with for parking spaces. Anyone riding public transportation is providing a benefit to the city, not to mention helping the environment as a bonus. It often seems, however, that bus riders are instead viewed by the city as a burden or, at best, undeserving charity cases.

As another Forum article noted in March, the system "has seen its funding cut as it also grows," and sadly, that trend is continuing with the latest proposed changes, at least two of which will make the system much more difficult to use.

Route 15 has historically been one of the busiest, most efficient routes, running between downtown, West Acres, and Walmart every 15 minutes during the week, and every half hour on weekends, allowing people to get to businesses on

9/2/25, 1:56 PMMATBUS

or near 13th Avenue, from eye appointments to Christmas shopping to visiting the bank. The only problem with it was that the bus was so packed on Saturdays, I always thought they should run every 15 minutes then too. The “pilot project” ahead of the planned permanent change does the opposite, running only once an hour on Saturday mornings. This has made the route much harder to use, adding an hour to my quick errands (from an average of one hour to two).

Even more startling is the elimination of the West Acres Transit Hub, which, in the announcement, doesn’t make clear until the fine print that it will save time by not going to West Acres at all. I can’t believe the city is planning to remove this major destination from the route, since I’ve personally been taking the bus to West Acres since I was in college in 1985. Not only do people need to get to their jobs, obviously a benefit to the community, but their ability to shop helps the economy. Even worse is moving bus riders from an enclosed, decent-sized and well-lit space, protected from the elements and with enough people around for security, to an open, unprotected and obviously less secure shelter stuck on a corner between big box stores. When buses only run once an hour, that increases the likelihood that people will need to wait longer periods, and with winter coming, this is a big problem.

Many people just can’t use the bus if it takes two hours: they have to get to work, get their kids to school, get to appointments and not have to wait in the cold. All of these changes feel like the mode of popular planning which starves a service of resources in order to destroy it: if a service is made inconvenient and difficult enough, fewer people will be able to use it, and then the reduced use is taken as justification for the lack of service. Making life exponentially difficult for the residents and tax-payers who rely on the city bus system.

Written Comment on Proposed MAT Bus Changes

To the Fargo City Commission,

I am writing to strongly oppose the proposed elimination of Route 16 in the MATBUS service changes scheduled for January 1, 2026;

For the past three years, I have relied on Route 16 every weekday to commute to work, access West Acres, and pick up prescriptions. I do not own a car, so this route is not just convenient; it is essential.

Unlike other proposed adjustments that reduce hours or frequency, eliminating Route 16 removes the route entirely. While I recognize that Route 15 is proposed to cover part of 34th Street, the remaining areas currently served by Route 16 would be left without

transit coverage. This creates a significant service gap, leaving riders like myself with reduced access to jobs, stores, healthcare, or daily necessities.

I recognize the financial pressures facing MATBUS, but I urge you to consider less harmful options: reducing frequency, shortening service hours, or rerouting for efficiency. Eliminating the route outright strips riders of essential mobility and independence. For me and many others, this is not an inconvenience, it is the loss of access to daily life. I respectfully ask the Commission to preserve Route 16 or adopt a compromise that maintains coverage for those who depend on it most. Public transit is not just a line in the budget; it is a vital public service that supports dignity, opportunity, and community well-being.

Thank you for your consideration.

I have relied on Route 16 every weekday for three years to get to work, access West Acres, and pick up prescriptions. Since I do not own a car, Route 16 is essential, not optional. While Route 15 may cover part of 34th Street, the rest of Route 16's service area would lose all transit coverage. Are there other options, such as reduced frequency or modified hours rather than full elimination?

Rec'd in Transit email:

With the elimination of route 16 (I live in Hawthorne at 4th St S and 10th Ave S), if I need to go downtown, which is frequent, it looks like I need to walk now. Otherwise, I would need to take 14 outbound and get off at 13th Ave S and 11th St and then walk 9 blocks north on 10th St S to the bus stop on 4th Ave S to catch an incoming 14, 15 or 18, or walk from my home six blocks west to 10th St S and six blocks north on 10th St S to the bus stop on 4th Ave S, right? What about rerouting route 14 inbound north on 4th St S instead of 10th St S since we already have route 15 covering inbound on 10th, as well as route 18 half of the way on 10th? 10th St. S there has a lot of coverage.

Thank you,

9/1/25, 7:08 PMMATBUS

Feedback Comments

Received in Transit email:

To: Julie Bommelman, City of Fargo Transit Director

I am writing concerning the proposed changes to the bus route/service changes, particularly the elimination of the entirety of service to South Fargo.

I have been riding MATBus for over 20 years. I have never had complaints; services have been more than adequate for my needs; and employees have always been extremely helpful. I have helped others learn to use and love the MATBus system.

**The proposed route/service changes would completely eliminate me as a customer.** Route 18 is the ONLY bus route that services my neighborhood. The elimination of the south half of Route 18 will strand me and many others. I will not be able to get to and from work, medical appointments, shopping, or any other parts of Fargo-Moorhead. If this change goes into effect, I will be forced to find other transportation and would no longer be able to use MATBus services.

This is *not* a threat that I will willingly stop using MATBus if the changes go into effect; it is a statement of fact. If I wanted to continue using MATBus, I would need to walk nearly an hour to and from the nearest bus stop. This is out of the question for even the healthiest person in fair weather, not even considering the typical inclement weather Fargo-Moorhead receives. My daily commute sees many regular riders on the southern half of Route 18 who will also have to seek other transportation services, further reducing MATBus revenue.

Previous proposed changes to routes/service never suggested that this area of Fargo would no longer have service. I was willing to add a third route to my daily commute. I am willing to pay more in bus fare for this sole route to South Fargo to remain.

I strongly advise you to not eliminate the south half of Route 18, or at least provide a separate loop to continue service to South Fargo. I do not want to discontinue my use of such a wonderful local service.

Thank you,

Colleen Gordon

#### From Mary Stip:

My husband Doug and I are devastated to hear about the route cuts being proposed. With the elimination of Route 18 service past 32nd Avenue, we will have no way to get to West Fargo from where we live. Cutting Sunday paratransit service will also cause serious challenges for people in our community who are disabled and rely on it for their independence.

The proposed fare increase to \$4.00 won't affect us as much personally since we can afford it, but many paratransit riders cannot. They live on fixed incomes, already struggle with medication costs, and cannot easily absorb another expense. We strongly hope the City Commission will reconsider and provide more funding for transit so that these essential services remain available.

Doug and I plan to attend the September 2nd meeting to share our concerns in person.

Rec'd in transit email:

I am writing in advance about the suggested changes to the Fargo MAT Bus routes, specifically in regards to Route 18.

Presently, I work for the Fargo Public Schools at the Operations Center on 40th Avenue. This location is approximately a third of a mile away from the nearest Route 18 bus stop.

If Route 18 were changed to stop at Essenia, I would no longer have a way to get to and from work. I also use this route to go to Hornbachers at Osgood, as well as Aldi and Walmart along 52nd

Avenue South to do my weekly shopping after work.

I know Route 18 isn't the most passenger-heavy route because it is a very long ride from downtown, and if coming or going south of Essenia, you have to wait an hour before another bus comes in the direction you are going. However, people such as myself depend on it for our livelihoods and shopping. Without the current Route 18, I wouldn't be able to go to work or do my shopping afterward. I personally know a woman who lives in the senior housing next to Hornbachers who works at Walmart on 52nd. This bus is the only means she has to get to work and do her shopping. She relies on Route 18 100%.

Were this proposed reduction of service to take place, I honestly don't know what to do if MAT Bus decided not to serve that part of town anymore. I can't afford to quit my job, and daily Uber or taxi rides wouldn't be feasible. That woman at the senior housing, who can barely afford that, may end up in much worse circumstances if she isn't able to beg for a ride from a kind soul just to get to and from work every day.

I implore you, please don't stop service to the area south of Essenia. Even if you had to reduce service to one bus at 90 minute service, it would be better than no bus at all, or if you could offer a ride-on-demand service like you do for the Industrial Park and NDSU. Like that woman in senior housing, I know of other workers who rely on Route 18 to get to work at Swanson Health, Aldevron, Hornbacher's at Osgood, Walmart at 52nd and even Microsoft who need this service to get them to and from work, even on a temporary basis.

I know the Federal and State cuts are devastating everyone (and technically for no good reason - we all know the ultra rich don't need tax cuts). We have to find a way to work together in spite of them. We are more powerful together.

Thank you for continuing to serve the people of the Fargo-Moorhead metropolitan public.

Lisa Jenkins

from comment box at GTC:

I live 1 block from Essentia Hospital and work at the 52nd Ave. Walmart. I really need 18 to cover farther south than the hospital. A cab fare would be too expensive and I don't want to leave my job which I really like. Today I took the 18 from Walmart to the GTC. From Walmart to Essentia 3 people got on and from Essentia to GTC only 1. I know other employees and customers use 18 to come to work and to shop.

I had to move once before because of a route being shortened. If the route is too long, maybe a smaller bus can cover the south side - like a passenger van

...

Why eliminate the section thru Osgood & south Fargo when there is alot of development in this part of Fargo near Walmart? Several new businesses are opening there & the population is growing. Why cut off options for people to get to jobs at these businesses?

As I will be unable to attend tonight's commission meeting, I wanted to be sure my voice was heard in regard to the matter of the MATBUS proposal in regards to cutting certain services.

I have already written a letter to the MATBUS transit email, but over the weekend, I was able to view the August 20 MATBUS coordination committee meeting and look at the agenda documentation. Hearing from the Moorhead financial officers gave me an additional perspective to view the changes from, and that is what I would like to address here.

The financial impact of the cuts in service to the whole of the Fargo-Moorhead area will be immense. My main concern personally is Route 18 because it is the bus I use to get me to and from work. According to the materials shared for the August 20 meeting, the number of riders impacted if Route 18 alone was truncated at Essenia is 117. That is likely 117 people out of a job if Route 18 were changed to the proposed cuts.

Another proposed change is to make Walmart the transfer point rather than West Acres. The number of people impacted there are just shy of 1000. I did not see what the proposal was in regard to West Acres, but I did hear at the coordination meeting that there is difficulty getting in and out of the West Acres parking lot. I, too, have noticed that this is a congested area, and since the move by Best Buy to that end of West Acres, the task of getting in and out of the bus area is far more difficult since buses have to compete with Best Buy customer traffic.

How will the people who work and shop at West Acres get to and from the bus and West Acres? What is the proposal to address this? The current area for the buses is inadequate, it is true, plus all the traffic congestion makes things more difficult to get in and out on time. I would personally like to see more ideas and proposals about what to do with this. I know other plans had been in the works about a new bus area, but none of that was included here. Were those plans scrapped, and why? What new plans for addressing getting these 1000 regular passengers to and from the area are being proposed, since it is so problematic?

I do not feel that these proposed changes have taken in the financial impacts of the community. This proposal is very drastic, and it feels like it was also very sudden. I know there are issues about federal and state funding that has caused this sudden proposal, but I don't feel this proposal is the best way of handling them. Cuts are not always the solution.

I am sending this email both to John Strand with the Fargo City Commission as well as the MATBUS transit email to ensure that this is included in tonight's meeting, as I will be at work and unable to attend. I will also include the ridership impact page from the August 20 coordination committee meeting.

Thank you for the service you all provide to our community. Although we don't say it enough, we do appreciate the effort your service provides to us. Thank you.

Rec'd via email from NDAD (North Dakota Association for the Disabled)

We had a client that just wanted to pass on his concerns. He stated that he lives near the bus stop by the Osgood Hornbacher's and I believe he said it is Route 18 and that this route is being taken away. He is frustrated as he stated the next closest pick up to him is Essentia and that is very far for him to walk because he is mostly blind.

Rec'd in Transit email:

Dear Transit Personnel,

The changes you propose appear reasonable to me. We've had some VERY cheap fares since I began using MATBUS. The change in the West Acres Hub will take some getting used to for all of us.

Personally, I have always felt that #15 has had a redundant trip to West Acres. How many times does #15 have to drive all the way in there?

Route #1 is not labeled on your map.

I am willing to try any changes you make if it keeps the buses on time.

I am waiting for West Fargo to step up and get a route established for Bonanzaville & the fairgrounds. The closest I can get to these places STILL requires me to walk about a mile or so. That's too far for me at 70 years of age. I would go out there a lot if I could ride the bus.

I am VERY appreciative of MATBUS. I have been riding for over 5 years. I follow the rules by always having my fare ready, I get on & off quickly, I bother nobody & do not shout or play loud music. Thank you, thank you! I am one gal who truly appreciates MATBUS service.

Rec'd in Transit email:

They should keep route 16 and keep west acres as a transfer point. It easy access to go downtown or wrist Fargo. Its a great spot get off and to the mall or hornbacker or target. Plus keep route 16 people by mall or cash wise have no close shelter to catch a bus. Long way to walk to 13th or mall if closing mall as a transfer point

Thanks.

**Comment received on our Remix Public Comment Map near the Walmart bus shelter on 47th St. S & 11th Ave S.**

Karen Kohoutek  
23 hours ago

Moving the Transit Hub from West Acres to Walmart means that we will have to stand in subzero temperatures for lengthy periods, instead of being inside an actual shelter. This is especially troubling given the proposed much longer times between buses if the Route 15 changes become permanent. A quick errand would leave me standing there potentially for an hour. There is also no security there whatsoever: you're just perched on a corner in the middle of nowhere. The change will make life more difficult especially for those who are disabled.

We need to keep route 16 and west acres as a transfer point. There no buses on 34 street s and 16 Ave or that area route is way too far for blizzard or hot. I've ridden for 25 yeast mall is great middle to downtown or west Fargo. Nice inside shelter many bathroom and many store and eating places. Especial when bused get behind ormiss transfer or bus stop running or really who want stand outside. Lot of senile and disable use that hub.

Comment on our public comment Remix map near West Acres.

Passenger called at 6:40pm to ask about the apartment loop being cut off of 32nd Ave S. She said she will not be able to walk to 32nd Ave with asthma to catch route 14 after the apartment loop is cut. Upon further inquiry about the changes, she was very upset. Specifically, not servicing West Acres and cancelling route 16, which she uses to get to Essentia on 17th Ave. She will be at the meeting on Sept. 2.

Received in a Facebook comment to West Acres: (directed to West Acres staff) "Hi! I just want to ask if you guys are aware that Matbus is planning on stopping serve to West Acres come January? I know as someone who uses the bus to come shop at West Acres this means that will stop. As in no more shopping trips to West Acres. I can't drive because of medical issues. Plus if you guys approve of this happening that says you don't want the business that people who rides buses that bring. Plus I also know people that work at West Acres that gets there by bus. Which means there will be an even larger shortage of employees to work at West Acres.

Passenger called dispatch very upset that West Acres is being cut and emphasized that it would be too cold and dangerous for passengers to walk from 38th St to the Mall (a 10minute walk). She explained that she has a difficult time walking because of osteoporosis and could injure herself. She has been using the bus system for 9 years and is so upset she is considering leaving Fargo because of these changes.

Edit: The passenger called back to tell me that in addition to poor weather with walking to the Mall, it would also increase crime for people who are trying to walk to the Mall. She stated she does not have a computer, but will be calling administration and KVRN news.

Rec'd in Transit email

Good Afternoon,

I work within the DD system and find some concerns with some of the changes proposed. Most importantly having at risk individuals moving over to the Wal-Mart bus shelter to transfer isn't ideal when weather is overly hot, rainy, stormy, friggged, or snowing. Having little to no shelter, unsure if walking paths will remain cleared especially in the winter. Also, losing the visibility of onsite security personal from West Acres to an area not as visible, with less lighting are some of our concerns if the transfer hub is moved from West Acres over to Walmart.

Received a call from a Lynn Samsten. She wanted to comment on the proposed changes for our system:

- She thinks we have a wonderful system and thinks that taking the bus away from West Acres and putting the transfer point at Walmart on 13<sup>th</sup> Ave is an awful idea. She feel like that area is not a nice part of town and the place is not big enough for the amount of people who may be using it.
- She hopes that both the Paratransit and the fixed route will both continue as we have them.
- She was amenable to the fare change. She thinks it is completely affordable but would like to see the service levels stay the same.
- **She added that it is very sad that the people who need this service the most, have the smallest voice.**

Received a phone call from a rider, who wishes to remain anonymous, but had a very strong opinion on the closing of the West Acres hub and having riders walking a minimum of 10 minutes to get to West Acres. Her thoughts are:

- City of Fargo is putting peoples' lives at risk
- All elderly, especially those with mobility issues will be at risk with ice, snow and rain
- Young people will be an easy target for abduction, as it is dark very early in the winter, and walking across an open parking lot will make them very easy targets
- People with shopping bags will also be targeted as robbery victims, as there is nowhere for them to seek shelter if someone tries to rob them

- People in wheelchairs will have a very hard time making the trip across the parking lot without getting stuck in the winter and also issues with curbs as this is not a regular pedestrian area

She feels this is a very stupid idea and City of Fargo needs to find a way to **not** let this happen

### Feedback Comments

Received in transit email:

Hello,

I am writing to express concerns about the planned service changes for 2026. I have been a daily rider of MATBUS for more than 10 years. I have worked two jobs for the past decade, and MATBUS transportation is what allows me to make this work.

I selected the location of my current residence off Fourth Street in part because it is along Route 14 and Route 16. The changes proposed for these two routes would drastically affect my ability to function as I currently do. I take the first Route 14 bus of the day at 6:15 am because it gets me to my full-time job in the West Acres area before my starting time. If Route 14 did not depart until 6:45 am, I would not arrive on time to work my current schedule. Route 16 would be the only other option for an on-time arrival, but that bus is slated for elimination.

Route 16 is also the bus that takes me home from work and delivers me to my part-time job downtown, which I work on Saturdays and some weekday evenings shortly after my other job. If Route 16 is eliminated, I will have no option for an inbound bus to downtown. This is of particular concern during inclement weather, especially dangerous cold in winter. Route 16 is also my link to the GTC for transfers to other buses.

Besides getting to my places of employment, I use MATBUS multiple times a week for grocery shopping. Route 16 is the only bus with a designated stop at the Fargo CashWise store, which I can now access immediately after work from West Acres. I understand that a Route 15 stop is nearby, but that bus does not get me as close to home and would require a multiple-block walk home with a load of groceries to carry.

I hope you will consider keeping Route 16 service. Also, if Route 14 needs to be reduced to once per hour, I would ask that you consider maintaining a start time of :15 after the hour to accommodate people who need an earliest possible bus. In addition, I was wondering if you have considered the feasibility of re-routing Route 14 so that the inbound bus could run north on Fourth Street. Doing so would at least provide an inbound option if Route 16 is eliminated.

I appreciate the service MATBUS has provided over the years. Thank you for considering my comments.

Sincerely,

Michael Florio

Comment on Remix map regarding Routes 15 and 20. Comment placed near Route 20 on 9 Ave S.

#### Anonymous Commenter

1 hour ago

...

I ended up having to switch from the route 15 bus to going on 15 and then taking route 20 to get to work. It is great to be able to take the bus closer, but now with the route removed I'll have to take it to Target and walk about 15-20 minutes. And even after work I would have to walk even further to get to the same stop. I initially had a stop by the light on 13th and 42nd but it was removed. Now I would have to walk even longer to go to and from work. For someone who takes the bus on a daily basis this is a big change. It takes me an hour each day to get to work and back home, but the change may make it even longer. For note just in a car ride it take eight to eleven minutes.

Especially with the removal of West Acres hub. The hub is next to a clinic and the mall where many people go to during the week and the weekend. It is also a good spot as it has an indoor area for people to sit in even during colder temperatures. Where the new hub would be has a sitting area, but it is not enclosed for the temps.

To others this may not seem like a big deal for these changes, but for myself and many others who take the bus, it is. I know changes have to be made, but some of these changes are taking away many passage to get to places efficiently and quickly.

Rec'd in Transit email:

Several residents received a letter about the proposed changes to take effect in January 2026.

We at St. Catherine North want to express our concern with the potential of losing the Sunday Para Transit services that typically run from 7-5pm. The Sunday service route is a wonderful opportunity for our residents, and I would expect other long term care facilities in the FM Area to have an economical option to bring residents out to church or other events with friends and family. Many residents and their families do not have the means for the other transportation companies and are deterred from going out related to the cost for the round-trip transportation. Losing the Sunday Parar Transit service option will further prevent residents from being able to go out to do desired activities.

Thank you for your consideration in keeping the Sunday Para Transit route.

I am writing in regards to the proposed MatParaTransit and Matbus changes,

I would like to introduce myself, My name is Hannah Harvey, I am 30 years old. I moved to Fargo in January 2022, and I have lived here for close to 4 years now. I currently take paratransit due to having a non verbal learning disability and also non epileptic seizures/absence seizures and not able to drive. I take paratransit to my day program at the Fargo Vocational Training Center and home several days a week as well.

These proposed changes would greatly affect me personally. It would make it very difficult to get to Prairie Heights Community Church where I attend and back home on Sundays as I live in North Fargo and the drive takes a half hour from my residence, where I live independently and is the only way I can get to and from Church.

Additionally, the proposed changes to bus fare would also greatly affect me as I would not have room in the budget for that. It would cost me \$40.00 more a month, which would not be feasible and a tight squeeze with limited income. Right now, I utilize MatParatransit Services about 40 times each month.

I ask that you would consider not changing those prospective items as this would make things very challenging for me

Respectfully,  
  
Hannah Harvey

### Feedback Comments

Rec'd in Transit email:

Good morning,

I am writing to register my opposition to at least part of the proposed MATBUS changes.

The proposed elimination of Sunday service for MAT Paratransit should be the very last thing eliminated by MATBUS. Just because it's a Sunday doesn't mean that disabled people who use the service during the week are just sitting at home. They too rely on the service to go to church, see friends or even just get out of their house (especially in the winter).

Disabled people have equal protection and eliminating their transportation while continuing transportation for the non-disabled on Sundays raises (at a minimum) ethical if

not legal questions.

There's so much wasted money in this city budget due to uncoordinated street construction and repair, and an embarrassment of a communications team to name a couple. Take the money from there before we start doing things like eliminating transportation for the disabled and talk about eliminating libraries.

That this was even proposed is a disgrace.

Andy

Anonymous comment on Remix map near Route 15 on 10th St. S.

Anonymous Commenter

1 day ago

This is a piss poor idea, as many people rely on MATbus, particularly Route 15 to get to and from work. The changes you are currently proposing would actively fuck over those that rely on it, which, in turn, would bring in less money for you, which you're already bitching about (a potential fix for that would to have major routes operational 24/7, trust me, you can find drivers willing to do it) and the removal of Route 14 would also be a piss poor idea. The bottom line is that the Fargo Moorhead area is NOT pedestrian friendly at all, with how spread out most things are.

Presented to the Fargo City Commission on 8/2/25 by Quincy Tullock. A copy was provided to Julie Bommelman after the presentation.

To the Fargo City Commission,  
 Thank you for the opportunity to share my perspective as a MATBUS consumer. My name is Quincy Tullock. I work with our aging population in a skilled nursing facility, and I'm enrolled at NDSU. Fargo might not be the home I was born into, but it is the place where I chose to put down roots. With Fargo's strong sense of resiliency and community, I would like to appeal to you as your neighbor. As a daily rider commuting to work, college, and appointments, I argue that an increase in fare, paired with a decrease in route frequency, will negatively impact ridership with a long-term decrease in revenue.

I understand that the reason for the proposal is economic-based. If prices have not been updated over the past ten years, it is time for a change. However, transit systems are particularly vulnerable to changes in ridership, especially with increased fares. According to the American Public Transportation Association, a 10% fare increase results in a 4% decrease in ridership for large cities and 8% in small cities within the US. Smaller cities have populations ranging from 50,000 to 100,000 people, and Fargo has a population of 120,000 according to the 2020 census, not including Moorhead and the greater area. With Fargo being somewhere in the middle and considering the proposed 33% price increase, 18% of current ridership is expected to decrease according to APTA. This is considering the price increase, and no additional variables to the current ride schedule.

Continuing to review the current proposal from MATBUS, three of the routes are going to be negatively impacted. Route 16 will cease to run, while routes 13 and 14 will decrease their frequency from 30 minutes to an hour. Decreasing frequency of routes negatively impacts ridership. Studies show that infrequent routes lose 7% or more of ridership per line for larger cities within the US, and 13% or more from smaller cities. With the proposed changes, a minimum of 10% of those two routes and all of route 16 will be eliminated. I don't have the time today to dig into each route's positive impacts on the Fargo Transit culture; however, it should be said that many people use these routes, and a delayed bus route is a bus in use.

There is a relationship of positive externality in pick-up frequency. More frequent times mean more opportunities to catch the bus. There are many vehicle owners who use MATBUS so they can save on gas, travel safely in the winter, and worry less about parking in downtown Fargo. I've met doctors, students, the elderly, and young families who all use the MATBUS transit system to travel through Fargo. If route times are decreased, then the many people who rely on the current transit schedule may need to consider alternate methods of travel because the system will become too inconvenient to use.

Fare increases and route decreases at the same time have historically led to a negative spiral for transit systems. A temporary increase in revenue will occur directly after the fare increase. However, the short-term gains have historically been lost within 6 months, as riders seek, find, and change their methods of travel, resulting in a no-win situation for anyone involved. The proposed changes with historical rider losses, 25%- 30% of riders will leave the MATBUS ecosystem for a 33% price increase. Let's do the math:

In 2017, 1.4 million individual rides occurred at \$1.50. For ease, we will not be looking at the decreased fare options. That's 2.1 million dollars in revenue from people riding the bus. With just the price increase causing 18% of riders to drop, and the route frequency decreasing ridership by 2%, that's a 20% decrease in total ridership based on historical values. That makes 1.12 million riders at \$2 a ride, making 2.24 million dollars a year. That's a 6% increase in revenue, not profit, at the historical average. If the loss of ridership is any greater than 20%, the increase in revenue evaporates. MATBUS cannot afford that. I don't know if the negative spiral is the goal; however, I must state the obvious: we have been in a downward spiral for the past 10 years. The pandemic caused ridership to crash even further from 1.7 million people in 2017 to 800 thousand in 2022.

Recently, the number of riders has been recovering by a percentage of people who see the bus as a safe, alternate, and economic method of travel. I've seen more people at bus stations, bus stops, and on the buses themselves within the past 6 months than in 2024. Based on those numbers above, you will turn a small percentage of a profit at the maximum after 6-12 months.

Fargo is not just a metropolitan area, but a community with care and compassion. Personally, I have built a community within this transit system, and I know I am not the only one. I ask that you keep in mind the lasting impacts these changes will have on our neighborhoods. I ask you to consider that temporary returns in value are nothing compared to a strong network of connected individuals who are satisfied with the services being provided. Satisfied riders are riders who return. Riders who return are riders who consistently give back to good service and great systems. If it takes me over two hours to get from place to place, I will be required to seek other means of transportation, and I am not the only one. The people may not be able to directly vote about when the MATBUS services are running or how much the service costs; however, the people will vote with their time, their patience, and most importantly, their wallets.

As a rider of the matbus system, I cannot democratically vote on what and when bus routes are available. With upcoming changes causing a decrease in bus availability, current consumers will be forced to vote with their wallets. I am deeply concerned for the people for where other options are not available. I see women from our local shelters using the bus. I see people who are struggling with their jobs and with their homes. I see young people using the transit to safely traverse the community. One of the changes is to no longer use West Acres as a transit hub, but Walmart. The Walmart stop is essentially the middle of traffic, and does not have an enclosed and heated space like West Acres. When building and maintaining a community, you have to make sacrifices. I recognize this. Is the Fargo City Commission sacrificing a life-line in the community for those who need it, over revenue? Is that where priorities lie? Is it income and the everchanging dollar, or the people who live and breathe in the same neighborhoods as you?

Yet there is hope. Not all transit system changes are negative, even among the proposals here. In Spokane, Washington, limited increases in route frequency increased ridership by at least 13.4%. The Spokane Transit Authority added the Bus Rapid Transit line, connecting the downtown and university areas with a faster route. That one route alone brought nearly a million rides to the system in one year. When transit systems increase lines, riders return. Small investments in city transit transform into massive returns that are long-term and resilient to changes. Decreasing routes and increasing fares may grant a surface level response in revenue. The long-term effects can devastate a system to the point of no return. Transit is a service for the public good, and positively impacts people in many ways.

Thank you for this time to speak.
