Technology

Community Changes

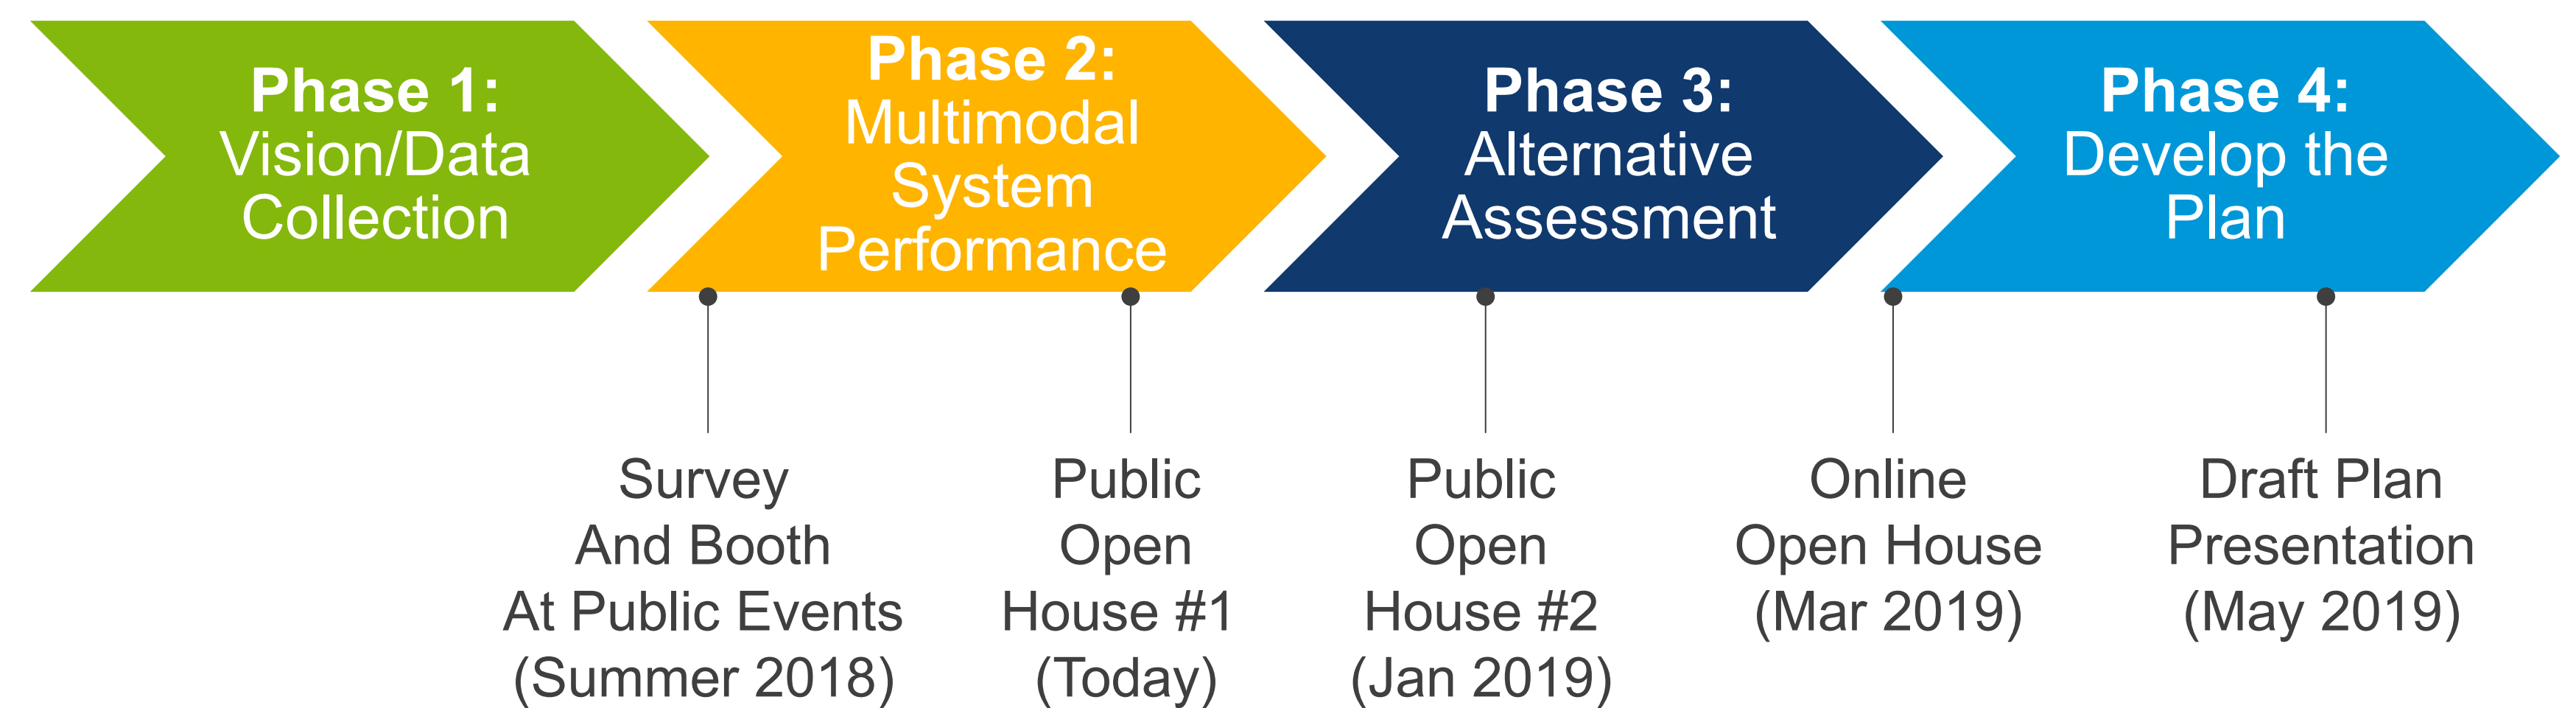

The Fargo - Moorhead Metropolitan Council of Governments is in the process of updating its Long Range Transportation Plan called Metro Grow, which will help shape our transportation future through the year 2045.

The plan will be developed to meet our community's goals, needs, and priorities for all modes of travel.

## Plan Overview

- Updated every 5 years
- Establishes a vision for a future transportation system
- Includes all travel modes - highway, bicycle, pedestrian, transit, and freight
- Identifies ways to balance the preservation of our existing system and expand the future system

## Schedule

## This is what we've heard so far...

Pedestrian infrastructure improvements are needed (sidewalks, street crosswalks, paths and trails, etc.)

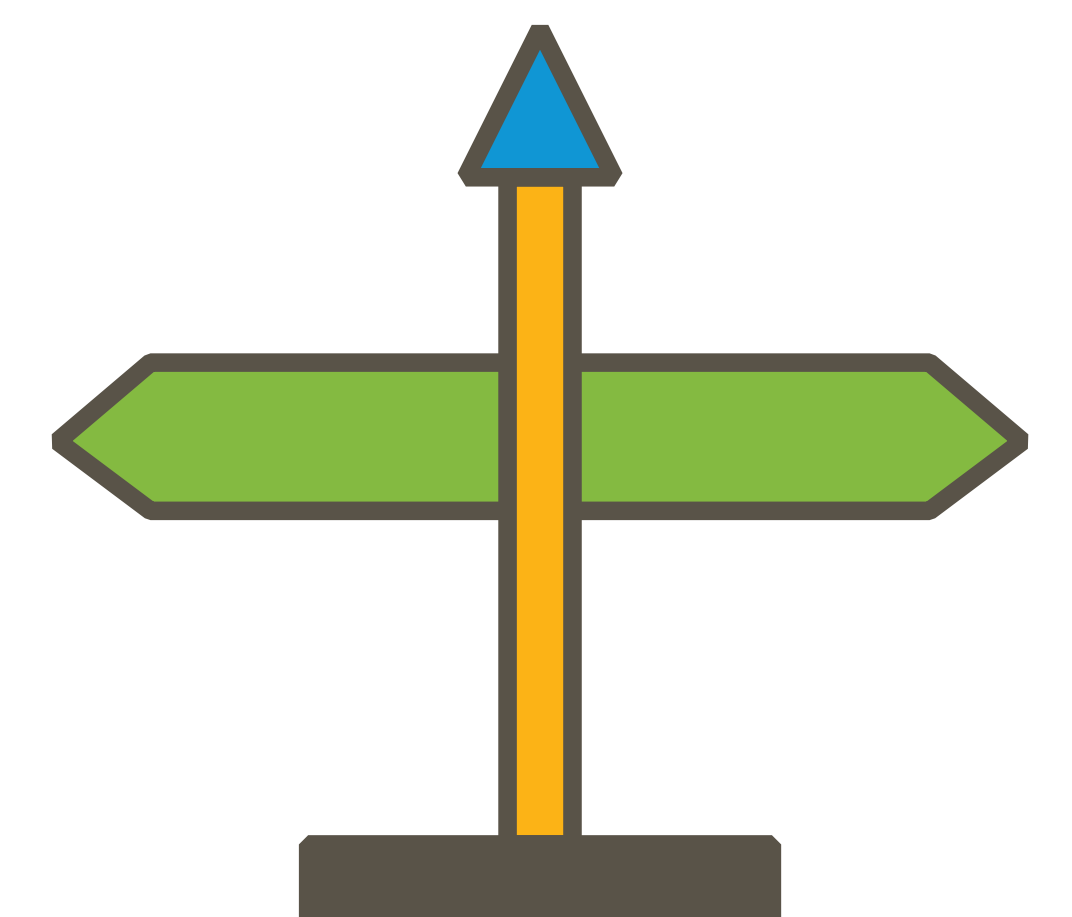

Implement technology to improve safety and efficiency for all modes of transportation

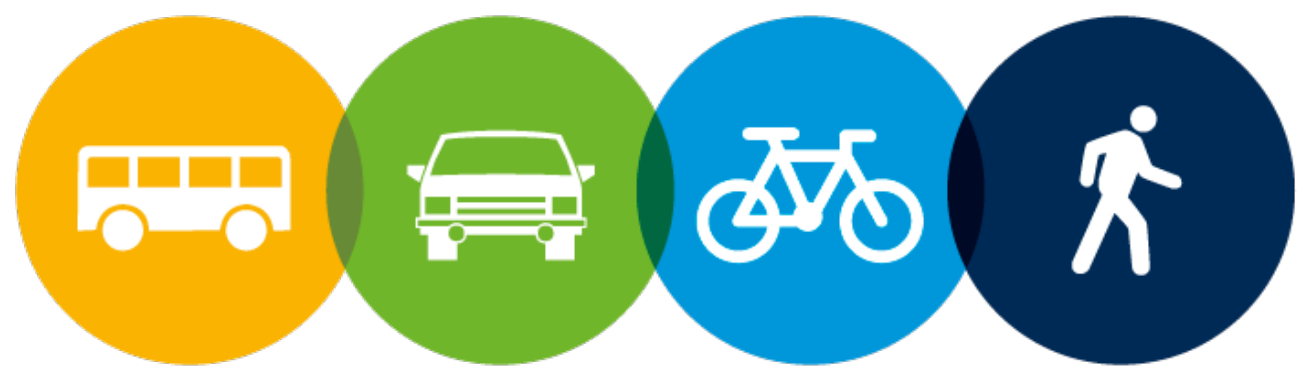

Implement "complete streets" while maintaining safe vehicle travel

More walkable and bikeable community streets

## My transportation investment choices.

SYSTEM INVESTMENT LEVEL	STREET AND ROADWAY			BIKE AND PEDESTRIAN SYSTEM	BUS AND TRANSIT SYSTEM
	PRESERVATION	EXPANSION <small>(WIDENING AND EXTENSIONS)</small>	AESTHETICS
